MARSHALL CHARGES SHIFT POSSIBLE IN SOVIET GERMAN AREA

U. S. SECRETARY OPENS DENAZIFICATION TALKS IN MINISTERS' PARLEY

MOSCOW, March 13-(A)-Secretary of State Marshall, speaking on denazification before the foreign ministers today, said that the United States has "been dis- \ turbed by frequent reports in the Sovjet zone of Germany that former active Nazis may be cleared by joining the Socialist Unity (Communist) party." Apparently speaking to fore-

stall an expected Soviet attack on American zone denazification, Marshall read a three-page statement relating that 12,000,000 persons have been registered for investigation, 200,000 tried and 370,-300 removed from office in the U. S. section of Germany. "Nothing to Conceal."

The secretary added that the American zone denazification went far beyond Allied control authority directives, and asserted "there is nothing to conceal." He pointed out Allied control

council had not received full reports on denazification in the Eastern (Soviet) zone of Germany and added "my government opposes the use of denazification favor of any political party." Top American diplomats said But, as the council of foreign min-

you will be confident that anything you ask in My name you will receive.

This sounds strange as a world program. Nothing is said about organization, governmental checks and controls, education, or commerce. It is with these latter things that most of our plans for world betterment deal today. But Jesus ahd a plan so simple as to be startling. Believe, He said, in God, ir Me as His Son, in the spiritual order over which we preside.

The world today lays but little emphasis on feith, but neither Jesus nor His contemporaries could have understood a generation which keeps repeating to itself the ludicrous falincy that beliefs do not matter. To Him they mattered so much that He made them the foundation of His system of world betterment. This means that Sunday school, week-day religious instruction, and Bible reading and prayer in the home, have upon them the signet of our Lord's approval.

Chocolate Bayarian Refrigerator Cake

Chocolate Bavarian

By CHARLOTTE ADAMS
Associated Press Food Editor.
March is certainly the tiredest time o fyear. Waiting for real spring ito come is often a dreary business. We get bored with our winter clothes, with the weather, and very likely with our food.
Fixing new and interesting desserts helps a lot to keep menus lively. Here are a few suggestions to help you do that.
Chocolate Bavarian Refrigerator
Cake.

1 envelope plain unflavored gelatine, 1-4 cup cold water, 2 eggs separated, 2 squares bitter chocolate method, or 6tablespoons cocon, 1-2 cup milek scalded, 1-2 cup sugar, 1-3 cup chopped nats, 2-4 cut dates, strips sponge cake.
Soften gelatin in cold water.
Bent cgg yolk slightly. Blend chocolate or cocoa (for cocommake a paste with a small amount of water) into scalded milk Slowly and scalded milk to cgg yolks, stirring until smooth. Add sugar and sait. Cook over hot water until mixture coats the spcon, stirring constantly. Remove from heat and add gelatine, stirring until dissolved. Add vanilla and

Piano Tuning and Repair

Prof. E. A. Weise explains a piano key to Marguerite Myers.

MUSTIN, March 13,—(Spl.)—
What causes colds? Colds are caused by germs too small to be seen under a powerful microscope, they are known as "Filterable Virus."
They are present in discharges from nose and throat. They are spread from person to person by sneezing, coughing, spitting or on any freshly contaminated article, as a drinking glass, which will pass on the infected saliva. A cold is not likely to be passed on during the first 24 hours.

If we could each live like a hermit, apart from others, we would probably never "catch cold." People living in Greenland and Labrador, we are old, do not have colds in the winter even when exposed to the most severe weather.

The busy person in everyday life cannot avoid exposure to colds. We expect to be sprayed by caraless coughs and sneezes. Young children, elderly people and invalids who suffer most from the effects of a cold should certainly be protected from those who have children, energy valids who suffer most from the effects of a cold should certainly be protected from those who have conditions in Louisiana makes the colds. Children with colds should plane worker's lot a hard one, be kept home from schools, and it says Edward A. Welse, plane technician for Louisiana State University's school of music. be kept home from schools, and if rest and light food do not help the cold to disappear shortly, then the family physician should be called. This may not be a cold but even more serious, as most of the communicable diseases start with the symptoms of a cold.

What can we do to avoid colds that cause more loss of time from industry and schools than all the

quired in reconstructing pianos.
The grand piano, Weise said, 'is more complicated than the engine of an automobile.*
Students, who are "hand-picked" for the course, may receive their contificate in two years aled" for the course, may receive their certificates in two years, al-though, Weise says, it would take five years of work in a piano fac-tory to qualify. The course con-sists of instruction in tuning, voicing, regulating, reginishing, restringing and rebuilding the in-istruments.

Why freight rates are going up...

Since 1939, railroad employes have had three general pay raises totaling $52\frac{6}{10}\%$, and the prices of fuel, materials and supplies have risen 61 %0%.

But when the war ended in 1945, the railroads were still hauling freight at rates no higher, and in some cases lower, than when the war began.

Without increased revenues, railroads could not meet these costs and also provide improvements in equipment and facilities-improvements that are essential for the low-cost freight and passenger services which are necessary to America's high standard of living.

Under these circumstances - and almost a year after the last major wage increase-the Interstate Commerce Commission recently approved an average increase in freight rates of 17%10%.

Of all the price increases in America

today, few have been so little and so late ag that in the price of railroad transportation.

How important are healthy railroads to a prosperous country?

Only when the railroads are financially healthy can they provide the new equipment, improved road beds, and better terminal facilities needed for still better service to you.

The defense of the nation depends upon the continuance of the efficient transportation which served the nation so well in the last war.

The railroads are among the largest employers of labor. They buy over 100,000 different products. They pay big taxes - taxes which are spent not only for public schools, public health, and police and fire protection, but even for highways, airways, airports and inland waterways.

Railroads are America's lifeline keeping goods flowing among the 48 states day and night in all weather.

They can continue to do this only if there is a reasonable balance between income and outgo. Like yourself, the railroads must make ends meet!

We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

The indictment further stated that Eastus filed a fraudulent return for 1943, claiming to owe total income taxes of \$426.17 and that his wife owed \$422.92. It was alleged he actually owed \$809.84 and his wife owed \$814.54.

"Failure to File."

Eastus also was charged with failing and refusing to file a partnership return of income for the law firm in which he and Jones were partners.

The indictment against Jones charged that he made an income tax return for the Eastus and Jones law partnership in 1942 reporting ordinary net income of \$6,230 after deductions and that the share of each man was \$3.11\(\text{Li}\) actually, the indictment says, income after deductions was \$14.556.77, and the share of each was \$7,276.38.

Cross Fund Drive

Blooming Grove residents believe in the work of the American Red Cross with such sincerity that they won't stop fishing for dollars even after the assigned quota is reached. The second community in Navarro County to reach its goal, Blooming Grove passed its \$200 mark and reported \$287.80 had been raised Wednesday morning.

Barry, the first to reach its quota, is still soliciting and has made no financial report, Red Cross officials said Wednesday.

Contributors had boosted the total beyond he halfway mark Wednesday morning, and workers were busy contacting homes and business houses as threatening weather again made the instance of the county in the 1947 campaign is \$11,017.
